

# Slide Zone or Talk Zone???

To keep the Flow Zone flowing we can't stand and chat in the slide zones.

For zone 2 we have 3 designated Talking zones.

1. Before you enter zone 2, not blocking the entrance. Get buckled in and give all your instructions here.
2. After the 2<sup>nd</sup> slide have your group shuffle to the red dot. Here you may have to teach them to sidestep up. They should already be familiar with the movements from your time in The Flats. Be sure the whole group is out of the way of the class behind you. Be quick about it.
3. At the end of the third slide, out of the way next to the trees. Re-cap what happened and decide if you want to take another lap or head to zone 3
