COMMUNITY

SAFETY TOPIC

We would like to remind our on snow staff about our chairlift policy and ensure that everyone is up to date and aware of how to safely load/unload and ride the chairlift with your students. Not sure how many students to ride with or how to communicate with the lift attendants...? Please re-read this section of our policies and expectations page: <https://spss.snowportal.com/resources/policies-and-expectations/#ffs-tabbed-14>

Last weekend we had an incident that resulted in a kid falling off the chairlift while in a lesson with our school. The student was taken to the hospital immediately with no long-term injury.

Last weekend was a strong reminder to us all to brush up on this policy and follow through with it.

UNIFORM REMINDERS

As it gets sunnier and warmer please remember to still remain in uniform when on snow. You may pick up an orange vest from the company store if wearing your jacket is too hot.

This means no cape jackets, arms through jacket vents, tank top makeshift jackets, shorts, etc...

With your vest, you may wear either black, white, or grey sleeves underneath.

Helmets are still required on snow at all times!
