INSTRUCTOR NEWS

Every season is a fresh start and now is a great time to think about some of your personal and/or professional goals that you will accomplish this season. Here are five steps to help you get started:

1. Set goals that motivate and inspire, you will be more likely to work towards them.
2. Choose SMART goals: ones that are Specific, Measureable, Attainable, Relevant, and Time Bound.
3. Write goals down, make them tangible and real.
4. Make an action plan, what steps are involved and how are you going to get there?
5. Stick with it! The process is just as important as the end goal.

If you need any help with the Goal setting process, please reach out to the SPSS Training Supervisor at tiana.peterson@stevenspass.com.
