What's New?!

February 2019 has been acclaimed as Seattle's snowiest month in 50 years!

Tuesday, Feb 19th marks the 5-year anniversary from a well-known avalanche that happened here at Stevens Pass in Tunnel Creek. A day that affected many in the SP community. Check out the NY Times article, if you have not already seen this: <http://www.nytimes.com/projects/2012/snow-fall/index.html#/?part=tunnel-creek>

The timing of this anniversary always seems to fit right in with our current year's weather conditions. This anniversary is a great reminder about our favorite playground.
