Exam Season is upon us!

It's the spring time and even in a COVID year that means folks preparing to take PSIA/AASI exams. Here are a couple of tips to ensure that you are ready to perform:

- First of all, if your exam conflicts with a scheduled work day make sure you have requested it!
- Don't let your gear let you down. Spring conditions can be variable. Be sure your equipment is waxed, tuned and ready.
 - Study up! Of course you are all prepared by now 😊 But for last minute inspiration checkout the [Matrix Videos, online courses and workbooks](#) or of course dive into your favorite manual all available through PSIA/AASI.
 - And feel free to reach out to your leader or trainer for last minute advice.

Spring Shirts

For those working beyond March 28th who did not yet pickup a spring shirt, next opportunity will be Saturday April 4th and Sunday April 5th from 7:30am – 9am in the locker room. Thanks for your patience as we have been waiting for magnet nametags to arrive. More news on those this week so stay tuned...

What position gives you the most options for movement while skiing or snowboarding?

How do you move and maintain an athletic position while moving in any circumstance or phase of a turn?

Consider positions limit your strength, power, or speed of movement, and what recovery movements will help you regain those options?
