## GLINT Survey Follow Up

Thank you to everyone who participated in our Spring GLINT survey!! Your feedback is truly valued and I wanted to provide a quick update regarding the data and our process for working through it.

This round, we captured responses from 38% of the staff. Our top drivers (strengths) included: Rehire, Manager, Role Clarity. While our biggest opportunities lie in: Feedback, Job preview/expectations, Larger Purpose. We are currently diving into these areas (amongst others) and are using your comments to help drive actionable change. We will be sure to keep everyone updated on our progress and invite anyone with any additional feedback/ideas to bring those forward. Thank you again!

Alicia O'Donnell, Manager

## Safety Reminder

*"Everybody falls. We say it all the time but do we really believe it? Well, I do. Not too long ago while on Early Ups I took a nice fall. I don't remember how. Just next thing I knew I was on my back. We have some crazy conditions at this time and I know we are all tired. So, take a moment for yourself and keep your eye out when riding. Both are things that help us from being too tired or riding with too much on our minds. I believe it would have helped me out."*
