

Winter 23' -24' | Issue 12 | Dec. 29, 2023

Hey all, hope the week has been fantastic!

Christmas is past, and this week has been in full swing. We hope you had a good time with friends and family, and that you've charged your batteries for the things to come.

Next week, business will start to return to the regular season cadence with less volume during the week increasing toward the weekend. This next week, we also launch our seasonal/multiweek programs! Check you schedule to see you if you are assigned to one. Any questions: let us know or see Jim and Jeanine

Meet our Newest Supervisor

Most of you have met her by now; we are happy to introduce our Adult Supervisor, Alecia McConnell. Get to know her with some quick details below:

Bio: Alecia McConnell has nine years of ski school experience thanks to her time with Outdoors for All. Her goals for this season are to learn Stevens Pass, support the ski & snowboard school team, and spend her free time skiing as much as possible.

Fun Fact: I was introduced to skiing when living in Germany as a kid, as my dad was serving overseas.

Please make sure to give her a warm welcome. She's already making a huge impact!

Save the Date: Employee Fair

Join us on Thursday, January 4th for the first ever Stevens Pass Employee Fair. Employees can learn about our resorts work force management efforts, the EpicPromise Foundation, the Wellness program, Leadership programming, Mountain Exchange and, our four employee led affinity groups! Those are: Rainbow Room, Black Employee Network, Veterans Partners & Allies, Women & Allies

This event will be hosted in the Birds Nest from 3pm—5pm. Hope to see you there!

Continuous Listening

Thanks to everyone who took the time and filled out the continuous listening survey! It is very helpful and appreciated. We have started to dive in and will do so more in the next week. We look forward to sharing the themes and takeaways with you soon.

Didn't get the chance to share your thoughts? The survey will open again later this season. Or, feel free to share your feedback with our team directly.

Training Corner

PSIA-AASI Level 1 Assessments for alpine and snowboard are scheduled for Saturday, January 20th. Limited spots are available, so visit the PSIA -AASI Northwest calendar page to register for the Stevens Pass event corresponding to your discipline.

Additionally, L1 prep classes are available on the calendar—check the instructor.snow.com site for details. If the assessment coincides with your work schedule, contact spschoolstaff@vailresorts.com.

Senior Specialist 1

There will be a two-day Senior Specialist 1 course at Stevens Pass on Thursday 2/1, and Friday, 2/2.

Park Verification

If you want to teach in the park you will need to complete a verification clinic. Upcoming dates for those are 1/6, 1/12, 1/13. Find those on the calendar at instructor.snow.com. If you have a current FS1, FS2, or did a park verification clinic last season, you do not need to redo your verification for this season.
