## Winter Schedule Form

Reminder: winter 24-25 schedule submission forms are now live!

Thank you to everyone who has submitted a schedule! So far we've been able to get 84% of all submitted schedules into the system which represents about 1/3 of our total expected staff count.

While there is still plenty of time to submit your schedule before the start of the season, doing so early helps you to secure high-interest dates and helps us ensure a smooth and efficient planning process for the upcoming season.
