## New Uniforms are Arriving

New uniforms are coming! This season, all departments at the resort will be outfitted with new Helly Hansen uniforms. Based on feedback from staff, these new kits were designed with:

- Lighter weight materials
- Enhanced breathability and flexibility
- Hi-viz reflection for safety
- Additional features (helmet-compatible hood, ventilation zips, etc)

These uniforms will be ready for you on your first day of training and pulled according to your sizing from last season. For new staff, we will send a survey to gather this information from you closer to November. It could be the case that you'll need to swap sizes and the company store will be open for staff to do so.
