

We’re one month into Bike Park operations with the heart of summer still ahead! Excitingly, we’re preparing to open a brand-new bike trail, and the NW Cup returns this September—bringing even more energy to the mountain.

At the same time, winter is top of mind. August marks the official launch for most of our lesson products, and guests will soon be booking their spots for the upcoming season. It’s an exciting time as we balance the thrill of summer with the anticipation of winter.

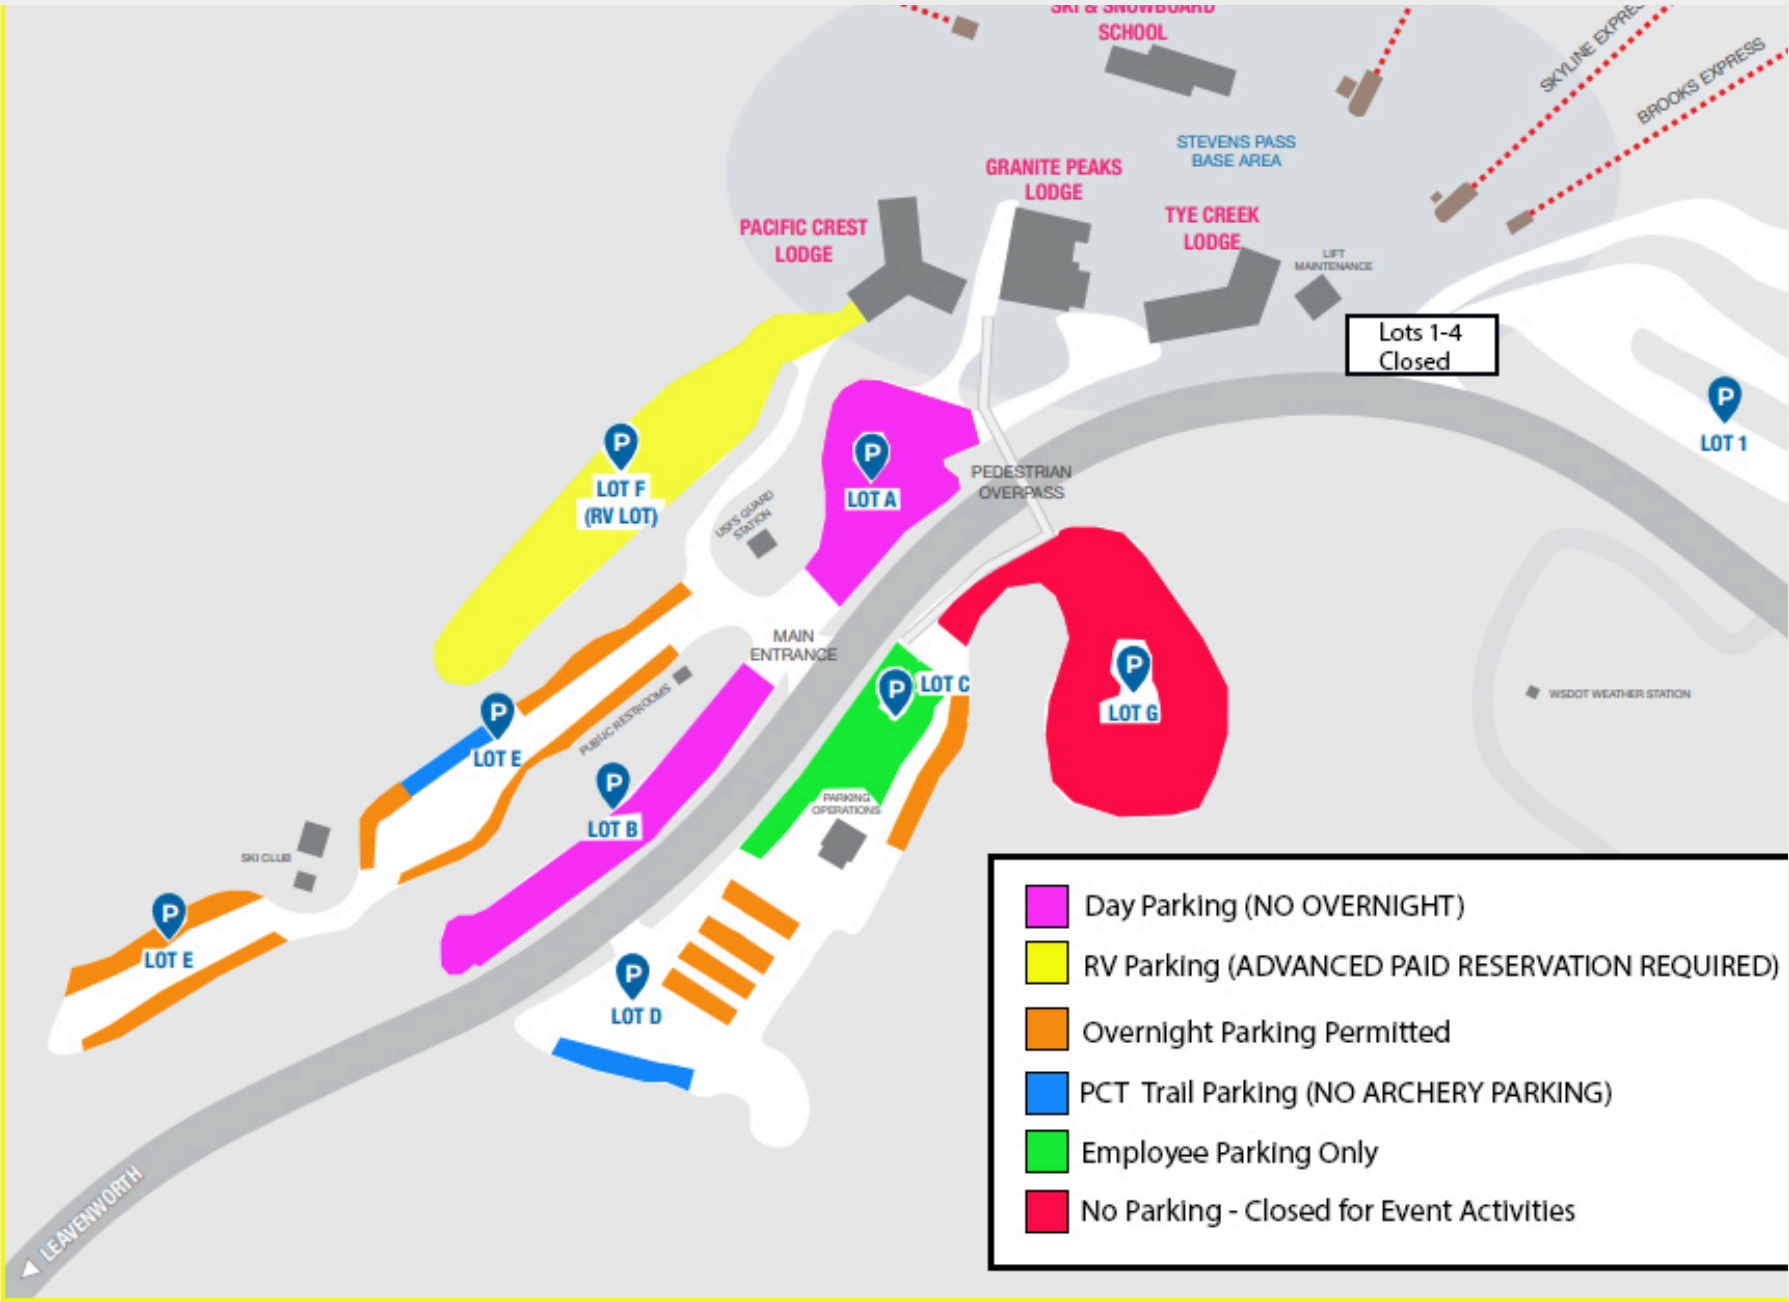

NW Mountain Challenge

This weekend, Stevens Pass is hosting the NW Mountain Challenge.

Starting tomorrow, 7/25 through Sunday 7/27, archers will come together to compete in a variety of courses and challenges.

Keen to check it out? Please do! Scenic rides and the Bike Park will operate as normal however, the Disc Golf course and Nature Trail will be closed during the event (the PCT will remain unimpacted).

As well, during the event, we are asking that employees park in Lot C. This is the lot below G near the tranist building.

SIS Onboarding

Onboarding for winter 25.26 has officially kicked off for returning, SIS (seasonal inactive) staff.

What to expect: SIS employees will receive communication from peopleconnect@vailresorts.com with their login information and directions to complete tasks in EpicEmployee.

This may include a background check/Law Violation Question, attestations and other required forms. Please note that the Legion schedule submission can be skipped as our dept. does not use this platform.

These **must be completed prior to Oct. 17** to avoid delays with remaining onboarding steps that will cascade closer to the start of winter. If you run into any barriers or have questions on these tasks, please let us know.

Summer Training Series

Whether you missed them the first time or are simply looking for a refresher, you can catch all the action from our Summer Training Master Talks right here:
